

SureTemp Tote® Delivery System

Patented **Cold-Chain**
Temperature Control
System for Delivery
of Temperature-
Sensitive Shipments

Folded and ready for delivery

Sealed and ready for shipment

The **SureTemp Tote®** provides a complete temperature-controlled system for delivery of medications and supplies that must remain cold to maintain stability during shipping.

The system includes a patented waterproof lined insulated box, interior radiant barrier bag, ultra-efficient gel pack and a super-absorbant polymer pad to protect materials from condensation.

Large size available. Use for deliveries or shipments.

ADVANTAGES

- Space-saving compact container ships and stores flat
- Available in 3 sizes to accommodate various shipping needs
- Simplifies management of inventory
- Styrofoam-free system is environmentally friendly
- Recyclable and easy to use
- May be delivered with built-in hand tote
- May be sealed and shipped via commercial carriers
